

6516207764.txt

Dear Sir or Madam,
My husband is an over-the-road truck driver and subscribes to XMRadio. I appreciate the service they provide him, especially local weather and traffic reports. I know how distracting it is to search for a station in an unfamiliar town.

Being able to have this information at the touch of a button is a safety tool that should NOT be denied to truckers or any traveler.

The service XMRadio provides gives me peace of mind. We pay for this service and it is not the right of the NAB to dictate what we are permitted to hear.

Please reject petition 04-160 and support XM's ability to provide this 'safety tool' and other programming that keep my husband rolling.

Thank You,
Sherry Garrett
